

VISION 21™ Debit Display Readers

The **VISION 21™ Debit Display Readers** are a secure alternative to cash transactions and are designed for automated or express entry and exiting and all parking fees are debited directly from your account. Each time the card is, the customer display will inform you of the balance available and at the exit lane, the fee for your current stay. The system can determine a specific rate structure or fee when the card is recognized. These cards can be setup for mag stripe, proximity, bar code or RFID usage.

Integration of client services include, multiple access control features and read devices, express credit card usage, system debit cards, hotel interface and valet operations, network connectivity and flexible reporting requirements.
